Recording System VMIB Announcement

An Attendant station in the system can record the voice announcements as system greetings and prompts. System greetings must be recorded before use. System prompts in user's language are contained as default in VMIB. Users can also modify those prompts.

Operation
To record system greetings from the Attendant station
1. Press the [TRANS/PGM] button and dial 06.

2. Dial the message number (001-070). Then you will hear the announcement "Press the # key to record." If there is already a recorded message in the number dialed, a corresponding message will be played.

3. Dial # to start recording. Start the recording after hearing the announcement "Record your message" and hearing the confirmation tone.
-or-
Dial * to record using an external music port on the MBU.

4. Press the [HOLD/SAVE] button to finish recording. Then a confirmation tone sounds and you can record the next one. Pressing the [SPEAKER] button while recording, stops the recording and the recorded message is saved.

To delete system greetings from the Attendant station:
1. Press the [TRANS/PGM] button.
2. Dial the code 06.
3. Dial the appropriate message number (when there is a recorded message in the number dialed, the recorded message is played).
Press the [SPEED] button while the message is playing to delete it.

To add additional message on VMIB message:
1. Press the [ADD] soft button while listening to the message (on 7208D/7224D).
2. Record additional message.
3. Press the [HOLD/SAVE] button.

To rewind the current message:
Press the [REWIND] soft button, the message is rewound with the VM MSG Rewind Timer (on 7208D/7224D).
